25X1A

~~CONFIDENTIAL~~

g. A tank officer stated that his unit was stationed near LILBEROSE (C 53/V 42). A camp of winterized cantonment buildings was about 1,600 feet south of the LILBEROSE railroad station, 250 feet west of the railroad line. The road through the camp gate was heavily furrowed by track-laying vehicles. The fence around the camp was floodlighted at night.

h. Maj FIIDEN was identified with a FUERSTENFALDE tank unit.

1 to 3 November 1949

2. a. Tanks, ammunition, equipment and furniture were entrained in the LILBEROSE-JAMLITZ (C 52/A 59) area day and night.

3 November 1949

b. Sixty-five [REDACTED] were observed on the LILBEROSE (C 53/V 50) - STAAKOW (C 52/A 59) - JAMLITZ road. About 130 more tanks and a number of armored reconnaissance cars were observed in the area west of the LILBEROSE-STAAKOW road and north of the STAAKOW-JAMLITZ road.

3 November 1949

3. The following observations were made in the LILBEROSE-JAMLITZ area:

a. Twenty-three [REDACTED] tanks, most with mounted AA machine guns, [REDACTED] and one armored vehicle without turret were moved toward JAMLITZ on the STAAKOW-JAMLITZ road. Five more tanks approached the railroad station from the direction of LILBEROSE. Large quantities of tank ammunition and quartering equipment were piled on the loading ramp. The trucks [REDACTED] were standing at the railroad station.

b. One large and two small armored reconnaissance cars, ten trucks, seven [REDACTED] and three or four armored personnel carriers were parked on a tank parking lot north of the JAMLITZ-STAAKOW road. A truck having the tactical symbol  $\frac{7}{3}$  but no motor vehicle number was seen on the road.

[REDACTED] carrying troops and quartering equipment, proceeded toward LILBEROSE.

d. Three to four hundred troops boarded a regular passenger train which left LILBEROSE for FUERSTENFALDE at 3:55 p.m.

a. The report indicates that component units of the 7th Gds Necz Div (Cadre) left the LILBEROSE area in early November 1949, returning to their military posts in the FALKENBURG/oder-FUERSTENFALDE area.

b. The over-all situation indicates that most of the component units of the 7th Gds Necz Div (Cadre) were in the LILBEROSE area throughout the summer of 1949, and only few units (possibly only detachments) of the division participated in the large-scale Fourth Gds Necz Army (Cadre) maneuvers in the FALKENBURG area.
